None of the planners and faculty for this educational activity have relevant financial relationship(s)to disclose with ineligible companies whose primary business is producing, marketing, selling, re-selling, or distributing healthcare products used by or on patients.

Educational Objectives

Following this activity, participants should be able to:

1. Explain the risks a research project might pose to participants
2. Describe the history and importance of human subjects protections
3. Identify research activities that involve human subjects
4. Outline the importance of study design in the protection of research participants
5. Identify how to minimize the risks posed by a research project
6. Describe appropriate procedures for recruiting research participants and obtaining informed consent
7. Identify the different committees that monitor human subjects protections

To Earn Credit:

1. Visit the CME Portal and Sign in: Link: https://sharp.cloud-cme.com/course/courseoverview?P=0&EID=19430
2. Select e-Module in the top blue banner.
3. Under **Browse by** select Specialty via top navigation bar. Select "**Research"** from dropdown.
4. Select the module then click on **Content**
5. **Launch** the course
6. Complete the posttest – Must score 80% to earn credit**
7. Complete the activity evaluation at the end of the test. (If you "X" out and miss this step, select My Account, then Evaluations & Certificates)
