

Dragon Copilot Quick Start Guide

CAPTURE THE CONVERSATION. COMPLETE THE NOTE. FOCUS ON THE PATIENT.

1

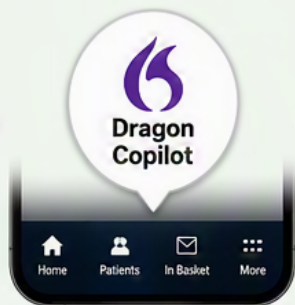

OPEN HAIKU

Open Haiku and select your patient.

2

LAUNCH DRAGON COPILOT

From the bottom toolbar, tap **Dragon Copilot**.

3

CONSENT MANDATORY STEP

RECORD

- ✓ Verbally consent your patient.
- ✓ Press **Record**.
- ✓ Place your phone where it can hear you and the patient.
- ✓ Conduct your visit as usual.

4

STOP RECORDING

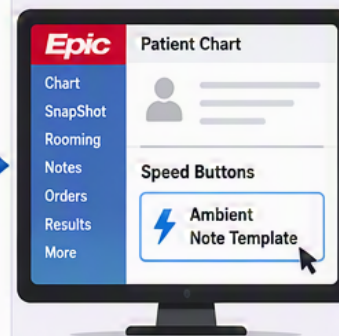

When the encounter is complete, tap **Stop Recording** on your phone.

Return to your workstation and open **Epic Hyperspace**.

5

OPEN EPIC & YOUR AMBIENT TEMPLATE

- ✓ Open the patient in Epic Hyperspace.
- ✓ Use your Speed Button to open your Ambient Note Template.
- ✓ AI-generated note components will populate.

6

REVIEW & FINALIZE

- ✓ Review the AI-generated content.
- ✓ Edit or add information as needed.
- ✓ Ensure accuracy and completeness.
- ✓ **Sign** your note.

BEST PRACTICES

Obtain consent before recording.

Position your phone for optimal audio capture.

Speak naturally during the encounter.

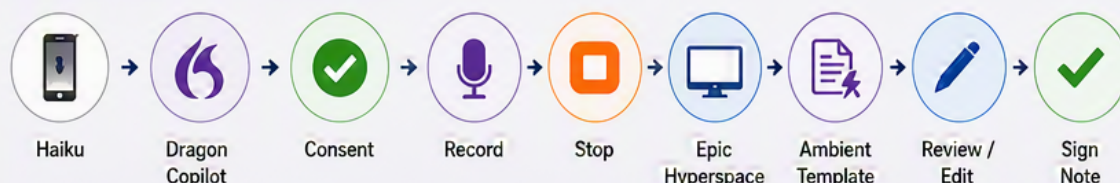

Review all AI-generated content for accuracy and completeness.

Use your clinical judgment before signing.

WORKFLOW AT A GLANCE

Dragon Copilot helps reduce documentation burden so you can focus on what matters most—your patients.
