

Sharp Oncology Service Line

Incorporating Updated Guidelines into the Management of Breast Cancer: Case Studies and Best Practices - Online

A **knowledge** activity for Sharp-affiliated physicians, nurse practitioners, physician assistants, pharmacists and other allied health professionals

Originally presented June 13, 2019

Start Date: July 30, 2019

Expiration Date: June 13, 2022

Faculty

Christy A. Russell, MD - Genomic Health

Siavash Jabbari, MD - Sharp Memorial Hospital

Omid Bakhtar, MD - Sharp HealthCare

Igor Medic, MD - Sharp Grossmont Hospital

Chistina Casteel, MD - Sharp Memorial Hospital

Educational Objectives: Following this module, participants should be able to:

1. Articulate the importance of clinical staging and the resources used for comprehensive staging
2. Summarize the importance of timely clinical staging, pathological staging, and prognostic staging and its effect on treatment decisions (Pharm)
3. Describe the significance of biomarkers in breast cancer diagnoses and their utility in treatment decisions (Pharm)
4. List the benefits of reflex testing in breast cancer.
5. Describe the factors used in breast cancer risk stratification
6. Describe the role age plays in ensuring a comprehensive breast cancer work-up prior to treatment initiation
7. Identify the role hereditary cancer mutations play in breast cancer treatment decisions (Pharm)
8. List the staging considerations for patients undergoing neo-adjuvant treatment
9. Identify how pregnancy effects biomarker testing and treatment decisions (Pharm)
10. Describe the approach to clinical staging for unexpected breast cancer malignancies
