None of the planners and faculty for this educational activity have relevant financial relationship(s) to disclose with ineligible companies whose primary business is producing, marketing, selling, re-selling, or distributing healthcare products used by or on patients.

Educational Objectives

Following this activity, participants should be able to:

1. Describe the role of parenteral nutrition (PN)
2. Discuss appropriate indications for PN
3. Choose the best PN route based on the patient's clinical status and nutrition needs
4. Define the major components of PN admixtures
5. List the role of components in maintaining nutrition status
6. Differentiate key factors to consider in the initiation, administration, and management of PN therapies
7. Recognize strategies for holding parameters, monitoring, treating complications and considerations for discontinuation

To Earn Credit:

1. Visit the [CME Portal](#) and Sign in: Link: <https://sharp.cloud-cme.com/default.aspx?P=0&EID=17794>
2. Select e-Module in the top blue banner.
3. Under **Browse by** select Specialty via top navigation bar. Select "**Pharmacy**" from dropdown.
4. Select the module then click on **Content**
5. **Launch** the course
