

SMB Monthly Research Review

Implementing a Protocol: Using Glucose Gel to Treat Neonatal Hypoglycemia

Designed for pharmacists, pharmacy technicians, physicians and other interested health care providers who specialize in the care of women and newborns

Activity Type: Knowledge

Released: June 1, 2017

Expires: July 20, 2017

Chairperson

Katie Andonian, PharmD*

Clinical Coordinator

Sharp Mary Birch Hospital for Women and Newborns

*No relevant financial disclosures

Educational Objectives:

Following this activity, participants should be able to discuss:

- Review the evidence published by Bennett and colleagues on effective management of neonatal hypoglycemia outside of the neonatal intensive care
- Describe the treatment algorithm rationale recommended by Bennett and colleagues using glucose gel for asymptomatic newborns with hypoglycemia

To Earn Credit:

1. Go to: www.sharp.com/cme and log in to the **CME Portal**
2. Select **Online** from left menu
3. As needed use search box, entering "**hypoglycemia**"
4. Complete the pretest
5. Download and review the content
6. Complete the posttest
7. Complete the activity evaluation
8. Credits will be uploaded to CPE Monitor within 14 days of last available date

Total time: 60 minutes

Accreditation: Sharp HealthCare is accredited by the Accreditation Council for Pharmacy Education as a provider of continuing pharmacy education.

CPE CREDIT/Activity Type – Knowledge - This activity is accredited for 1 contact hours or .10 continuing education units (CEUs). You may view your credits 30 days after the conference by visiting www.mvcpemonitor.net. **Universal Activity Number (UAN):** 0571-0000-17-102-H01P/T
