

PORTFOLIO PROGRAM
American Board of Medical Specialties®

Sharp HealthCare Portfolio Program Sponsorship Supporting your continuing certification (MOC) needs

In 2016, The American Board of Medical Specialties Portfolio Program™ (AMBS Portfolio Program) granted Sharp HealthCare portfolio Sponsorship status, allowing us to review and approve quality and safety activities for continuing certification (MOC) credit from an ABMS Member Board or the National Commission on Certification of Physician Assistants (NCCPA).

As an approved Portfolio Sponsor, the Sharp HealthCare CME Department

- Guides activity selection, development, and implementation
- Evaluates activities against the Portfolio Program standards
- Completes the essential administrative work with the ABMS Member Boards and NCCPA

Activities can be large in scale to address systemic and clinical issues or small activities to improve a specific area or practice.
