

Sharp HealthCare MOC IV Guide

As an approved Portfolio Sponsor, the CME Department:

- Guides activity selection, development, and implementation
- Evaluates activities against the Portfolio Program standards
- Completes the essential administrative work with the ABMS Member Boards

Begin MOC IV Accreditation Process

Step 1: Connect with CME Department to begin the QI activity application

Step 2: Provide the Following to the CME Department

- Select at least one relevant therapeutic area or up to five areas as well as one or more medical specialties addressed as part of the QI activity
- Provide AIM statement for the activity – Example Aim Statement: We will [improve, increase, decrease] the [number, amount, percent] of [the process/outcome] from [baseline measure] to [goal measure] by [date]
- Identify the target population – Example; adults 18 and over without documented hypertension
- Describe the type of interventions and tools used

Step 3: Submit the following to the CME Department for Accreditation

- Provide QI activity oversight assurance
- Provide identifying information
- Attest to meaningful participation
- Reflect on participation
